INTRODUCTION

STATISTICS PRESENTED IN THIS PUBLICATION

This publication presents a range of social and housing statistics produced from the 2001 Census of Population and Housing for Queensland. For comparative purposes, it includes 1996 Census data presented on 2001 Census geography. In addition, selected 1901 Census data are included for each State in table 1 to mark Australia's Centenary of Federation in 2001.

The tables in this publication provide selected characteristics of the population and their housing arrangements for Statistical Divisions (SDs), Statistical Subdivisions (SSDs) and Statistical Local Areas (SLAs). The purpose of these tables is to allow a broad comparison of characteristics between geographic areas.

This publication also contains the Basic Community Profile (BCP) for Queensland. This set of tables is provided to illustrate the wide range of data available from the Census. The BCP consists of 33 tables. This publication contains the first 21 tables which focus on the social and housing characteristics. The remainder of the BCP, tables 22 to 33, will be published in Census of Population and Housing: *Selected Education and Labour Force Characteristics for Statistical Local Areas, Queensland* (Cat. no. 2017.3).

The statistics in this publication are mostly presented on the basis of where people were counted on Census Night ('as enumerated' counts). Counts of people based on where they usually live ('usual residence' counts) are also provided.

POPULATION MEASURES

Census counts should not be confused with the Australian Bureau of Statistics' (ABS) official population estimate, the Estimated Resident Population (ERP) which is used for electoral purposes and in assisting in the distribution of government funds to state and local governments. ERP is the definitive population estimate and is derived from the census counts. For example, ERP includes an estimate of Australians temporarily overseas. For a fuller description of population measures and the derivation of ERP, please see paragraphs 7, 8 and 9 of the Explanatory Notes. Appendix 1 includes a table showing census counts and ERP for each State and Territory.

One of the important features of the Census is that it describes the characteristics of Australia's population and housing for small geographic areas and small population groups. While not available in this publication, data at the smallest geographic level Collection District (CD) are available in a range of census products. For more information on these products, please refer to Appendix 2—Census Products and Services. Concepts and definitions used in this publication are explained in the Glossary and more detailed information is available in the *2001 Census Dictionary* (Cat. no. 2901.0). The Explanatory Notes in this publication provide a discussion of the scope and coverage of the Census, the different measures of population, and the limitations of census data.

This publication is one of a series of publications which provide data at the SLA level for each State and Territory. A similar publication is also available for the whole of Australia, providing data at SSD level. See Appendix 2 (Census Products and Services) for more information.

SUMMARY OF FINDINGS

QUEENSLAND OVERVIEW

The Census of Population and Housing conducted on 7 August 2001 counted 3,655,139 people in Queensland on Census Night. This represents an increase of 8.5% (286,289 people) in Queensland's population since the 1996 Census (3,368,850 people), the largest percentage increase of all the States and Territories. Of those counted in Australia on Census Night, 3,522,044 people were usual residents of Queensland.

Selected person characteristics

The median age in Queensland was 35 years in 2001 compared to 33 years in 1996. The proportion of people aged 0–14 years increased to 27.9% (1,018,579 people) in 2001, up from 21.7% in 1996. The proportion of people aged 65 years and over has remained stable at 12.3% (450,900 people) in 2001, the same proportion as in 1996. The proportion of males and females in the population has also remained stable with slightly more females (50.7%) than males (49.3%).

New topics for the 2001 Census included Computer use at home and Internet use. For Queensland a higher proportion of males (41.9%) used a personal computer at home than females (40.7%). This compares with 43.5% of males and 40.5% of females for Australia. A higher percentage of males (28.2%) than females (25.9%) used the Internet at home.

Selected ethnic characteristics

The majority of people counted in Queensland were Australian born (77.7% or 2,786,359 people) compared with 72.6% for Australia. The largest overseas born group comprised people born in the United Kingdom at 5.1% (183,722 people) followed by New Zealand at 3.6% (127,597 people). No other country accounted for more than one per cent. English was the only language spoken at home by 88.5% (3,173,390 people) of the population, compared to 80.0% for Australia. The most common languages spoken at home other than English were Chinese languages, which accounted for 1.0% (35,948 people) of the Queensland population.

Indigenous people

The number of people who identified as being of Indigenous origin increased by 18.1% to 112,772 people in 2001, up from 95,518 people in 1996. The Indigenous population represented 3.1% of Queensland's population. This compares with 2.2% for Australia.

Of the Indigenous people counted in Queensland, the largest proportion (25.6% or 28,909 Indigenous people) were counted in the Far North Statistical Division. This was followed by the Brisbane Statistical Division (23.9% or 26,967 Indigenous people) and the Northern Statistical Division (10.3% or 11,597 Indigenous people).

Housing characteristics

There were 1,487,193 dwellings counted in Queensland, an increase of 11.8% (157,395 dwellings) since 1996. Only the Northern Territory had a larger percentage increase in the number of dwellings (18.0%). Of these dwellings, 91.2% (1,355,613) were occupied private dwellings, 8.6% (127,299) were unoccupied private dwellings and 0.3% (4,244) were non-private dwellings.

SUMMARY OF FINDINGS *continued*

Occupied private dwellings Dwellings which were fully owned or being purchased accounted for 62.4% of the occupied private dwellings in Queensland. For the occupied private dwellings being purchased (349,333 dwellings), the median monthly housing loan repayment was \$849. The median weekly rent for the 30.1% of occupied private dwellings being rented (408,117 dwellings) was \$152.

Household characteristics Of the households counted in 2001, 68.0% (922,213 households) were family households, a decrease from 69.9% in 1996. The proportion of lone person households increased to 21.8% (295,523 households), up from 20.6% in 1996. The proportion of group households was 4.3% (57,684 households) in 2001 compared with 4.8% in 1996. The Census shows that 47.5% of all Queensland households (643,965 households) used a personal computer at home in the week prior to the Census. This compares with 48.6% of all households for Australia. For the same period, more than one-third of Queensland households (35.3% or 478,659 households) reported using the Internet at home, compared with 36.1% of households for Australia.

Family type The 2001 Census counted 933,928 families in Queensland, an increase of 9.5% since 1996. In 2001, less than half of all families (44.7% or 417,806 families) were couples with children, down from 47.7% in 1996. There were corresponding increases in the proportion of couple families without children (37.4%), up from 35.9% in 1996, and one parent families (16.0%) up from 14.6% in 1996.

.. not applicable

(a) 1901 data for the Northern Territory and the Australian Capital Territory are included in South Australia and New South Wales respectively. See also Explanatory Notes.

(b) Includes Other Territories.

(c) Includes overseas visitors.

(d) Under the constitution at federation, Indigenous people were not included in the Census. This changed following a referendum in 1967.

BASIC COMMUNITY PROFILES

ABOUT THE BASIC COMMUNITY PROFILE

The key characteristics from the Census are summarised in a set of 33 standard tables which make up the Basic Community Profile (BCP).

The first 21 tables (B01–B21) included in this publication provide a range of social, demographic and housing characteristics from the Census. Similar BCP tables are available for other geographic areas, including Collection Districts, Local Government Areas, Postal Areas and Suburbs.

The remainder of the BCP series (B22–B33) provide education and labour force related data and are published in *Census of Population and Housing: Selected Education and Labour Force Characteristics* (Cat. nos 2017.0–8).

The first release BCPs for Statistical Local Areas are available from our web site free of charge.

For further information about the Community Profile Series, please refer to *Appendix 2, Census Products and Services*.

SELECTED CHARACTERISTICS (FIRST RELEASE PROCESSING), Persons

	Males	Females	Persons
Total Persons(a)	1 803 810	1 851 329	3 655 139
Aged 15 years and over(a)	1 408 738	1 475 443	2 884 181
Aged 65 years and over(a)	205 269	245 631	450 900
Aboriginal	41 971	45 351	87 322
Torres Strait Islander	8 122	8 293	16 415
Both Aboriginal & Torres Strait Islander(b)	4 489	4 546	9 035
<i>Total Indigenous persons</i>	<i>54 582</i>	<i>58 190</i>	<i>112 772</i>
Born in Australia	1 373 597	1 412 762	2 786 359
Born overseas(c)	303 953	312 215	616 168
Speaks English only	1 570 860	1 602 530	3 173 390
Speaks other Language(d)	122 266	131 425	253 691

(a) Refer to Glossary for further detail on ancestry.

(b) As this table is a multi-response table, the 'total responses' will not necessarily equal the 'total persons' counts.

(c) Includes birthplace of either/both parents not stated.

(d) Includes responses of Aboriginal, Torres Strait Islander & Australian of South Sea Islander descent.

(e) If two responses are categorised in the 'other' category within the same region, only one is counted.

(f) Includes 'inadequately described'.

EXPLANATORY NOTES

SCOPE AND COVERAGE

1 The 2001 Census of Population and Housing was held on 7 August 2001. Australia's first national census was held in 1911 and since 1961 a census has been taken every five years, a frequency which is specified in the *Census and Statistics Act 1905*. The objective of the census is to count the number of people in Australia on Census Night, identifying their key characteristics and those of the dwellings in which they live.

2 The Census aims to count every person who spent Census Night in Australia. The only people in Australia on Census Night who are excluded from the Census are foreign diplomats and their families.

3 The Census includes people on vessels in or between Australian ports, on board long distance trains, buses or aircraft and on oil or gas rigs off the Australian coast. People entering Australia before midnight on Census Night are counted while people leaving an Australian port for an overseas destination before midnight on Census Night are not. Visitors to Australia are included regardless of how long they have been in the country or how long they plan to stay. However, for people who intend to be in Australia less than one year, only basic demographic data are available. The Census includes homeless people and people camping out.

4 All occupied dwellings are counted in the Census with the exception of diplomatic dwellings. Unoccupied private dwellings are also counted with the exception of unoccupied dwellings in caravan parks, marinas and manufactured home estates, and units in accommodation for the retired or aged (self-care). Unoccupied residences of owners, managers or caretakers of such establishments are counted.

5 Details about the 2001 Census content, collection operations, confidentiality and privacy protection, processing and evaluation activities are contained in *2001 Census of Population and Housing: Nature and Content* (Cat. no. 2008.0).

BASIC COMMUNITY PROFILE TABLES B01 TO B21

6 Tables numbered B01 to B21 contained in this publication are from the *2001 Census Basic Community Profile* (Cat. no. 2001.0). These tables are available in hardcopy or electronic format for all standard census geographic areas. For more information about the Community Profiles please refer to *Appendix 2, Census Products and Services*.

ABS POPULATION ESTIMATES

7 Population counts on a 'Place of usual residence' basis are shown in this publication in tables 3 and 10. All other counts in this publication are on a 'Place of enumeration' basis. 'Place of enumeration' means where the person was counted on Census Night. The Census can provide person counts based on 'Place of usual residence' for Collection Districts (CDs) and aggregations of CDs.

8 The Estimated Resident Population (ERP) is the official ABS estimate of the Australian population. The ERP is based on results of the Census of Population and Housing. It is compiled as at 30 June of each census year and updated quarterly between censuses. The intercensal estimates of the resident population are revised following the next census.

9 The ERP is derived from census usual residence counts, by making the following three important adjustments:

- An adjustment for census net underenumeration (or undercount). The level of underenumeration is derived from the Post Enumeration Survey which is conducted soon after the Census, and from estimates based on demographic analysis;

EXPLANATORY NOTES *continued*

ABS POPULATION ESTIMATES

continued

- The inclusion of an estimated number of Australian residents who are temporarily overseas on Census Night and are therefore not covered by the Australian Census. The number of such people is estimated from statistics on overseas arrivals and departures; and
- The third adjustment occurs because the Census does not fall on 30 June. For example, the 2001 Census was held on 7 August. Back dating of population estimates from 7 August to 30 June is accomplished using data from birth and death registrations, overseas arrivals and departures, and estimates of interstate migration, for the period 1 July to 7 August.

10 ABS population estimates are published in *Australian Demographic Statistics* (Cat. no. 3101.0), produced quarterly, and in *Population by Sex and Age, Australian States and Territories* (Cat. no. 3201.0) produced annually. ERPs for SLAs are published in *Regional Population Growth, Australia* (Cat. no. 3218.0).

11 The ABS also provides projections (based on different assumptions as to future fertility, mortality and migration) of the resident population of Australia, States and Territories. These projections are published every two years in *Population Projections, Australia* (Cat. no. 3222.0).

DATA LIMITATIONS

12 Census data are subject to a number of inaccuracies resulting from errors by respondents or mistakes in collection or processing. Whilst many of these are corrected by careful processing procedures, some still remain. The effect of the remaining errors is generally slight, although it may be more important for small groups in the population. The main kinds of error to keep in mind are:

- *Partial non-response*: In some cases where an answer is not provided to a question an answer is imputed (often from other information on the form). In other cases a 'Not stated' code is allocated;
- *Processing error*: While such errors can occur in any processing system, quality management is used continuously to improve the quality of processed data, and to identify and correct data of unacceptable quality;
- *Random adjustment*: Table cells containing small values are randomly adjusted or suppressed to avoid releasing information about particular individuals, families, or households. The effects of these adjustments are statistically insignificant;
- *Respondent error*: Because processing procedures cannot detect or repair all errors made by people in completing the forms, some remain in final data; and
- *Undercount*: Although the census aims to count each person, there are some people who are missed and others who are counted more than once. The data in this publication are not adjusted for the net undercount.

13 Further information on data quality is provided progressively in *Census Update* and in *2001 Census Papers*.

QUALITY OF INDIGENOUS STATISTICS

14 For further information on the quality of Indigenous statistics, see *Population Distribution, Aboriginal and Torres Strait Islander Australians* (Cat. no. 4705.0). This publication presents counts for Aboriginal and Torres Strait Islander Australians from the 2001 Census for Indigenous geographic areas, accompanied by information on data quality to help interpret the data. Estimates of the Indigenous population, based on the 2001 Census, are also included. For comprehensive information on the quality of Indigenous census data, see *Population Issues, Aboriginal and Torres Strait Islander Australians* (Cat. no. 4708.0).

EXPLANATORY NOTES *continued*

1901 DATA

15 Care should be taken when using 1901 data. These data are generally not comparable with data from more recent censuses.

- In 1901 Aboriginal and Torres Strait Islander people were excluded from the Census.
- The Northern Territory and the Australian Capital Territory were not established as separate entities until 1911 so 1901 data for these areas are included in South Australia and New South Wales respectively.
- As personal income was not included in the 1901 Census, average annual individual income has been estimated from other sources. This estimate is for all persons, whereas the 2001 Census only collects individual income for persons aged 15 years or more.

16 In table 1, data for 1901 have come from two sources. Individual income came from *A Statistical Account of the Seven Colonies of Australasia 1901–1902*, by T.A. Coghlan, Statistician of New South Wales, published in 1902. All other 1901 data for table 1 came from the *Official Yearbook of the Commonwealth of Australia No. 1, 1901–1907*, published by the Commonwealth Statistician in 1908.

OVERSEAS VISITORS

17 Overseas visitors are defined differently for the 2001 Census. For the 1996 Census overseas visitors were defined as any person who stated they would be in Australia for less than 6 months. For the 2001 Census they are defined as any person who stated they would be in Australia for less than 12 months. Data for overseas visitors are restricted to age, sex and marital status.

CALCULATIONS OF PROPORTIONS

18 When calculating the proportion of the population with a particular characteristic, 'Not stated' responses are included in the denominator. For example, in table 1 the proportion of people born in Australia is calculated by dividing the number of persons who stated that they were Australian-born by the total population and expressing the result as a percentage. The 'Total population' includes the category 'Not stated'.

19 For census variables which include data for overseas visitors i.e. age, sex and marital status, 'Overseas visitors' are also included in the denominator.

CALCULATION OF MEDIANS

20 A median is a measure of central tendency. It is a mid value which divides a population distribution into two, with half the observations falling below it and half above it. Unlike averages (means) medians are not usually skewed by extreme observations.

21 There are a number of issues to be aware of:

- The categories 'Not stated' and 'Not applicable' are not included in the calculation of medians;
- The category 'Overseas visitor', is only included in the calculation of the median when data for overseas visitors is collected for the variable (see paragraph 17). For example, 'Median age' in table 1 of this publication includes overseas visitors whereas 'Median weekly individual income' in the same table does not;
- If a median falls into a category that has a text only label, then a value of 0 is used for that category. For this publication this is only relevant to the calculation of median personal income, as the income classification includes categories 'Nil income' and 'Negative income';
- When calculating a median on a classification containing ranges, the median may fall into a range which is open-ended. In this case, the median would be set to the number in the label. For example, in the calculation of median weekly individual income, if the median was to fall in the last range *\$1,500 or more*, then \$1,500 would be allocated as the median; and

EXPLANATORY NOTES *continued*

- 'Median monthly housing loan repayment' and 'Median weekly rent' are based on the ranged variables HLRD01 and RNTD01 respectively. This is due to difficulties associated with the large number of small cells when using individual dollar values to perform these calculations. An adjustment has been made to HLRD01, with the range *\$1,500 and over* changed to *\$1,500–\$1,999* and an additional range *\$2,000 and over* added.

UNADJUSTED DOLLARS

22 The 1996 Census dollar values for Median weekly individual income, Median monthly loan repayments and Median weekly rent have not been adjusted into 2001 dollars.

APPENDIX 1 ESTIMATED RESIDENT POPULATION

POPULATION MEASURES

This table is provided to highlight the difference between the Census 'as enumerated' and 'usual residence' counts and the Estimated Resident Population (ERP). The ERP is the official ABS estimate of the Australian population. It is based on the Census of Population and Housing usual residence counts and is updated quarterly using births, deaths and migration data.

POPULATION MEASURES—30 JUNE AND 7 AUGUST 2001

	<i>Census as Enumerated(a)</i>	<i>Census Usual Residence(b)</i>	<i>Estimated Resident Population(c)</i>
New South Wales	6 371 745	6 326 579	6 609 304
Victoria	4 644 950	4 660 991	4 822 663
Queensland	3 655 139	3 522 044	3 635 121
South Australia	1 467 261	1 470 057	1 514 854
Western Australia	1 851 252	1 828 294	1 906 114
Tasmania	456 652	460 672	472 931
Northern Territory	210 664	188 075	200 019
Australian Capital Territory	311 947	309 998	321 680
Australia(d)	18 972 350	18 769 249	19 485 278

- (a) Number of persons counted in each State/Territory on Census Night, 7 August 2001.
- (b) Number of persons usually resident in each State/Territory on 7 August 2001 regardless of where they were counted on Census Night.
- (c) These are census usual resident counts, plus Australian residents temporarily overseas on Census Night, plus the estimated census underenumeration, plus deaths and less births, net overseas migration and net interstate migration occurring between 30 June and 7 August 2001, giving estimated resident population at 30 June 2001.
- (d) Includes Other Territories.

APPENDIX 2 CENSUS PRODUCTS AND SERVICES

2001 PRODUCTS AND SERVICES

A wide range of products and services are available from the 2001 Census of Population and Housing. Brief descriptions of these are included below. For more detailed information on the 2001 Census range of products and services, please refer to the *2001 Census of Population and Housing Directory of Census Statistics* (Cat. no. 2910.0).

Census products fall into two broad types: reference products and data products. Most of the reference products from the 2001 Census are available free of charge from the ABS web site.

CENSUS REFERENCE PRODUCTS

2001 Census Dictionary

The *2001 Census Dictionary* (Cat. no. 2901.0) is a comprehensive reference guide to the 2001 Census of Population and Housing. The Dictionary includes a complete listing of 2001 Census classifications. It describes new topics introduced for 2001 and highlights classification changes that have occurred since the 1996 Census. The Dictionary also explains the concepts relevant to census collection, processing and output of data.

How Australia Takes a Census

How Australia Takes a Census (Cat. no. 2903.0) provides information about the history of the census, the planning process and the way in which the census is conducted.

Geographic Classifications and Codes

Statistical Geography: *Volume 1 Australian Standard Geographical Classification (ASGC): 2001 Census Edition* (Cat. no. 1216.0) provides information about the names and codes of the standard geographic areas used in the 2001 Census. *Statistical Geography: Volume 2 Census Geographic Areas, Australia 2001 Census Edition* (Cat. no. 2905.0) and *Statistical Geography: Volume 3 ASGC Urban Centres/Localities: 2001 Census Edition* (Cat. no. 2909.0) provide information on further geographic areas, and are due to be released in June 2002 and September 2002 respectively.

2001 Census Statistical Local Area Maps

These reference maps show the Statistical Local Areas (SLAs) from the 2001 Census. Each map shows the boundary of an SLA and the Collection District boundaries contained within.

Digital Boundaries

Census boundaries are made available electronically as *Digital Boundaries*. They include all of the Australian Standard Geographical Classification (ASGC), Urban Centres and Localities, and Census-specific areas.

Census Snapshots

Census Snapshots are a new product designed to provide a summary overview for selected geographic areas and are available from the ABS web site, free of charge. *Census Snapshots* contain subsets of Community Profile data, including person counts, age and birthplace, presented in a narrative form for easy access by a wide audience. A *2001 Census Snapshot* for Australia and some States will also be available to celebrate the Centenary of Federation.

CLIB2001

CLIB2001 is an electronic product provided free of charge to public libraries through the ABS Library Extension Program. The product contains a large volume of tabulated data and software that allows access, display and printing of the data. For 2001 this product will be available as both a CD-ROM (limited access) and an Internet-based product. *CLIB2001* comprises the complete 2001 Census Community Profile Series and Classification Counts.

CENSUS DATA PRODUCTS

Estimated Resident Population

The Estimated Resident Population (ERP) is the official ABS population estimate. It is based on census usual residence counts, and is updated quarterly using births, deaths and migration data.

Two publications containing ERP data, based on 2001 Census figures are:

APPENDIX 2 CENSUS PRODUCTS AND SERVICES *continued*

Estimated Resident Population continued

- *Australian Demographic Statistics — 2001 Census Edition* (Cat. no. 3101.0); and
- *Regional Population Growth, Australia — 2001 Census Edition* (Cat. no. 3218.0).

Selected Characteristics

The Census of Population and Housing suite of publications contains data and commentary on various person and dwelling characteristics from the 2001 Census at selected geographic levels. There are three series of publications in the suite:

- *Selected Social and Housing Characteristics, Australia* (Cat. no. 2015.0);
- *Selected Social and Housing Characteristics for Statistical Local Areas* (Cat. nos 2015.1–8);
- *Selected Characteristics for Urban Centres, Australia* (Cat. no. 2016.0);
- *Selected Characteristics for Urban Centres and Localities* (Cat. nos 2016.1–7);
- *Selected Education and Labour Force Characteristics, Australia* (Cat. no. 2017.0); and
- *Selected Education and Labour Force Characteristics for Statistical Local Areas* (Cat. nos 2017.1–8).

Community Profile Series

The Community Profile Series provides detailed and comprehensive census characteristics of people, families and dwellings for small areas. This series is available for all standard census geographic areas, and is available in hardcopy and electronic formats.

The series comprises six Community Profiles:

- *Basic Community Profile* (Cat. no. 2001.0) contains 33 tables of detailed data covering dwelling, household and family topics. This profile is available for all standard census geographic areas, Commonwealth and State Electoral Divisions, Postal Areas, and Suburbs, for the States/Territories and Australia;
- *Indigenous Profile* (Cat. no. 2002.0) contains 29 tables of key Census characteristics for Aboriginal and Torres Strait Islander people, for all ASGC areas from Statistical Local Area (SLA) level to whole of Australia, as well as Indigenous Areas and Aboriginal and Torres Strait Islander Commission (ATSIC) regions;
- *Time Series Profile* (Cat. no. 2003.0) contains 22 tables comparing data from the 1991, 1996 and 2001 Censuses where the classifications are comparable. Data is presented on 2001 geographic boundaries;
- *Usual Residents Profile* (Cat. no. 2004.0) contains 28 tables of data for persons usually resident in the selected area. This is the only community profile based on place of usual residence;
- *Expanded Community Profile* (Cat. no. 2005.0) contains 49 tables available for SLAs and larger areas, comprising more detailed versions of some of the Basic Community Profile tables, plus additional tables; and
- *Working Population Profile* (Cat. no. 2006.0) contains 19 tables of labour force and related data on the characteristics of employed people.

Classification Counts

Classification Counts (Cat. nos 2022.0–8) provide frequency counts for 2001 Census variables in complete classificatory detail, for every State/Territory and Capital City Statistical Division, cross-classified by sex where applicable.

CDATA 2001

CDATA 2001 is a CD-ROM product which contains a large volume of tabulated census data, digital boundaries and base map data, with software to produce tables, maps and graphs of the data. The product is available at the Australia and State/Territory levels.

APPENDIX 2 CENSUS PRODUCTS AND SERVICES *continued*

CDATA 2001 continued

There are two *CDATA 2001* products available, offering different levels of functionality:

CDATA 2001—Full GIS: This version is aimed at the expert GIS user who requires detailed spatial data analysis using Structured Query Language, geocoding and importation of 'client own' data.

CDATA 2001—Quickbuild: This version has been designed for GIS users with more basic spatial analysis requirements. It allows users to produce data reports, graphs and/or maps. The product is aimed at inexperienced or intermediate GIS users. *CDATA 2001—Quickbuild* users will also have the option to upgrade to *CDATA 2001—Full GIS* if so desired.

Social Atlas Series

The *Social Atlas* (Cat. nos 2030.0–8) publications feature colour maps of the key social, demographic and economic characteristics of each capital city.

Australia in Profile — A Regional Analysis

Australia in Profile — A Regional Analysis (Cat. no. 2032.0) provides commentary and data on a number of key social indicators from the 2001 Census, with the focus on regional distributions and comparisons.

CONSULTANCY SERVICES

The following census specific services are available:

- *Customised Profiles Service* provides community profile data tailored to your needs, on a variety of media;
- *Customised Table Service* provides detailed cross-classified tables tailored to your needs on a variety of media;
- *Customised Geographic Data Reports Service* provides tabular geographic data which relate specifically to the census Geographic Areas and their characteristics (e.g. area); and
- *Customised Mapping Service* provides both Customised Thematic Maps and Customised Reference Maps on request.

GLOSSARY

General descriptions of terms and concepts used in this publication are provided below. Tables are also footnoted where applicable for additional clarity. Detailed definitions of classifications and concepts are available in the *2001 Census Dictionary* (Cat. no. 2901.0).

Ancestry A person's ancestry, when used in conjunction with the person's birthplace and their parents' birthplace, provides a good indication of the ethnic background of first and second generation Australians. This is particularly useful for identifying distinct ethnic or cultural groups (e.g. Maoris or Kurds), which cannot be identified using country of birth alone.

Respondents were asked to consider and mark the ancestries they most closely identified with, and to count their ancestry back as far as three generations. Respondents had the option of nominating several ancestries but only the first two answers were processed for output purposes.

Christmas Island See Geographic areas.

Cocos (Keeling) Islands See Geographic areas.

Dwelling A dwelling is a structure which is intended to have people live in it, and which is habitable on Census Night. Some examples of dwellings are houses, motels, flats, caravans, prisons, tents, humpies and houseboats.

There are private and non-private dwellings:

- A private dwelling is normally a house, flat, part of a house, or even a room; but can also be a house attached to, or rooms above, shops or offices; an occupied caravan or unit in a caravan park or craft in a marina; occupied dwelling in a Manufactured Home Estate; occupied self-care unit in Accommodation for the Retired or Aged; a houseboat; or tent if it is standing on its own block of land. An occupied caravan situated on a residential allotment is also classed as a private dwelling. Private dwellings can be either occupied or unoccupied.
- Non-private dwellings are those dwellings not included above, which provide a communal or transitory type of accommodation. They are classified according to their function. These dwellings include hotels, motels, guest houses, prisons, religious and charitable institutions, defence establishments, hospitals and other communal dwellings. Only occupied non-private dwellings are included in the census.

Family A family is defined by the ABS as two or more persons, one of whom is at least 15 years of age, who are related by blood, marriage (registered or de facto), adoption, step or fostering, and who are usually resident in the same household. The basis of a family is formed by identifying either a couple, parent-child or other blood relationship. Information on persons temporarily absent on Census Night is considered in family coding.

Geographic areas The tables in this publication are at the levels of Statistical Local Area, Statistical Subdivision and Statistical Division, as defined by the 2001 Census edition of the Australian Standard Geographical Classification (ASGC).

Statistical Local Area (SLA): These areas consist of one or more Collection Districts and cover, in aggregate, the whole of Australia without gaps or overlaps.

Statistical Subdivision (SSD): These areas consist of one or more Statistical Local Areas and cover, in aggregate, the whole of Australia without gaps or overlaps.

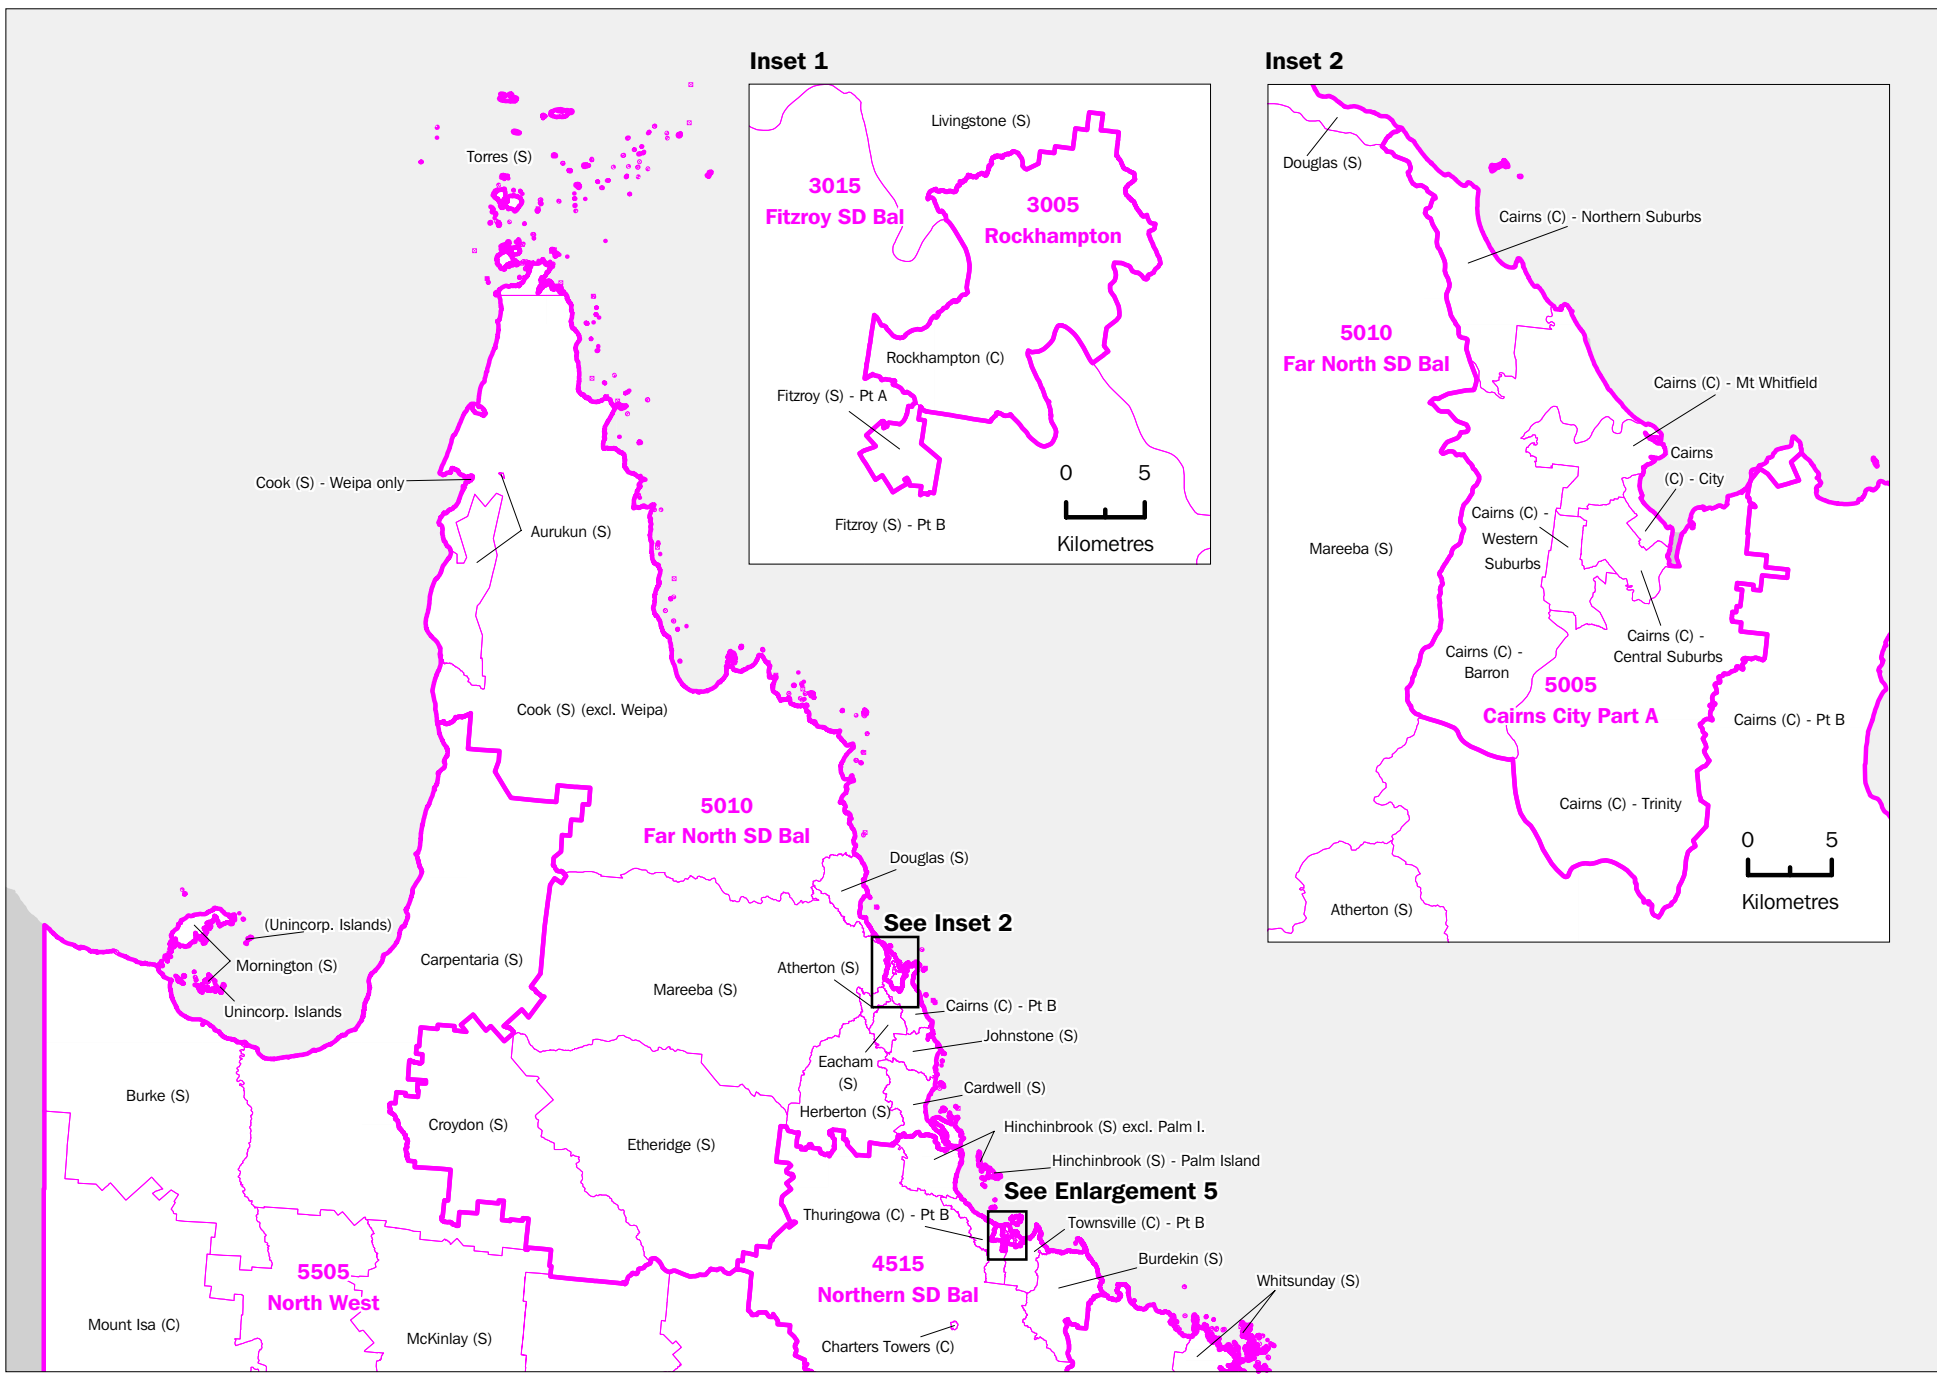

Statistical Division (SD): These areas consist of one or more SSDs and cover, in aggregate, the whole of Australia without gaps or overlaps. They do not cross State or Territory boundaries. However, the Other Territories, Jervis Bay Territory and the Territories of Christmas Island and Cocos (Keeling) Islands together form one SD. Capital city SDs are predominantly urban in character and the

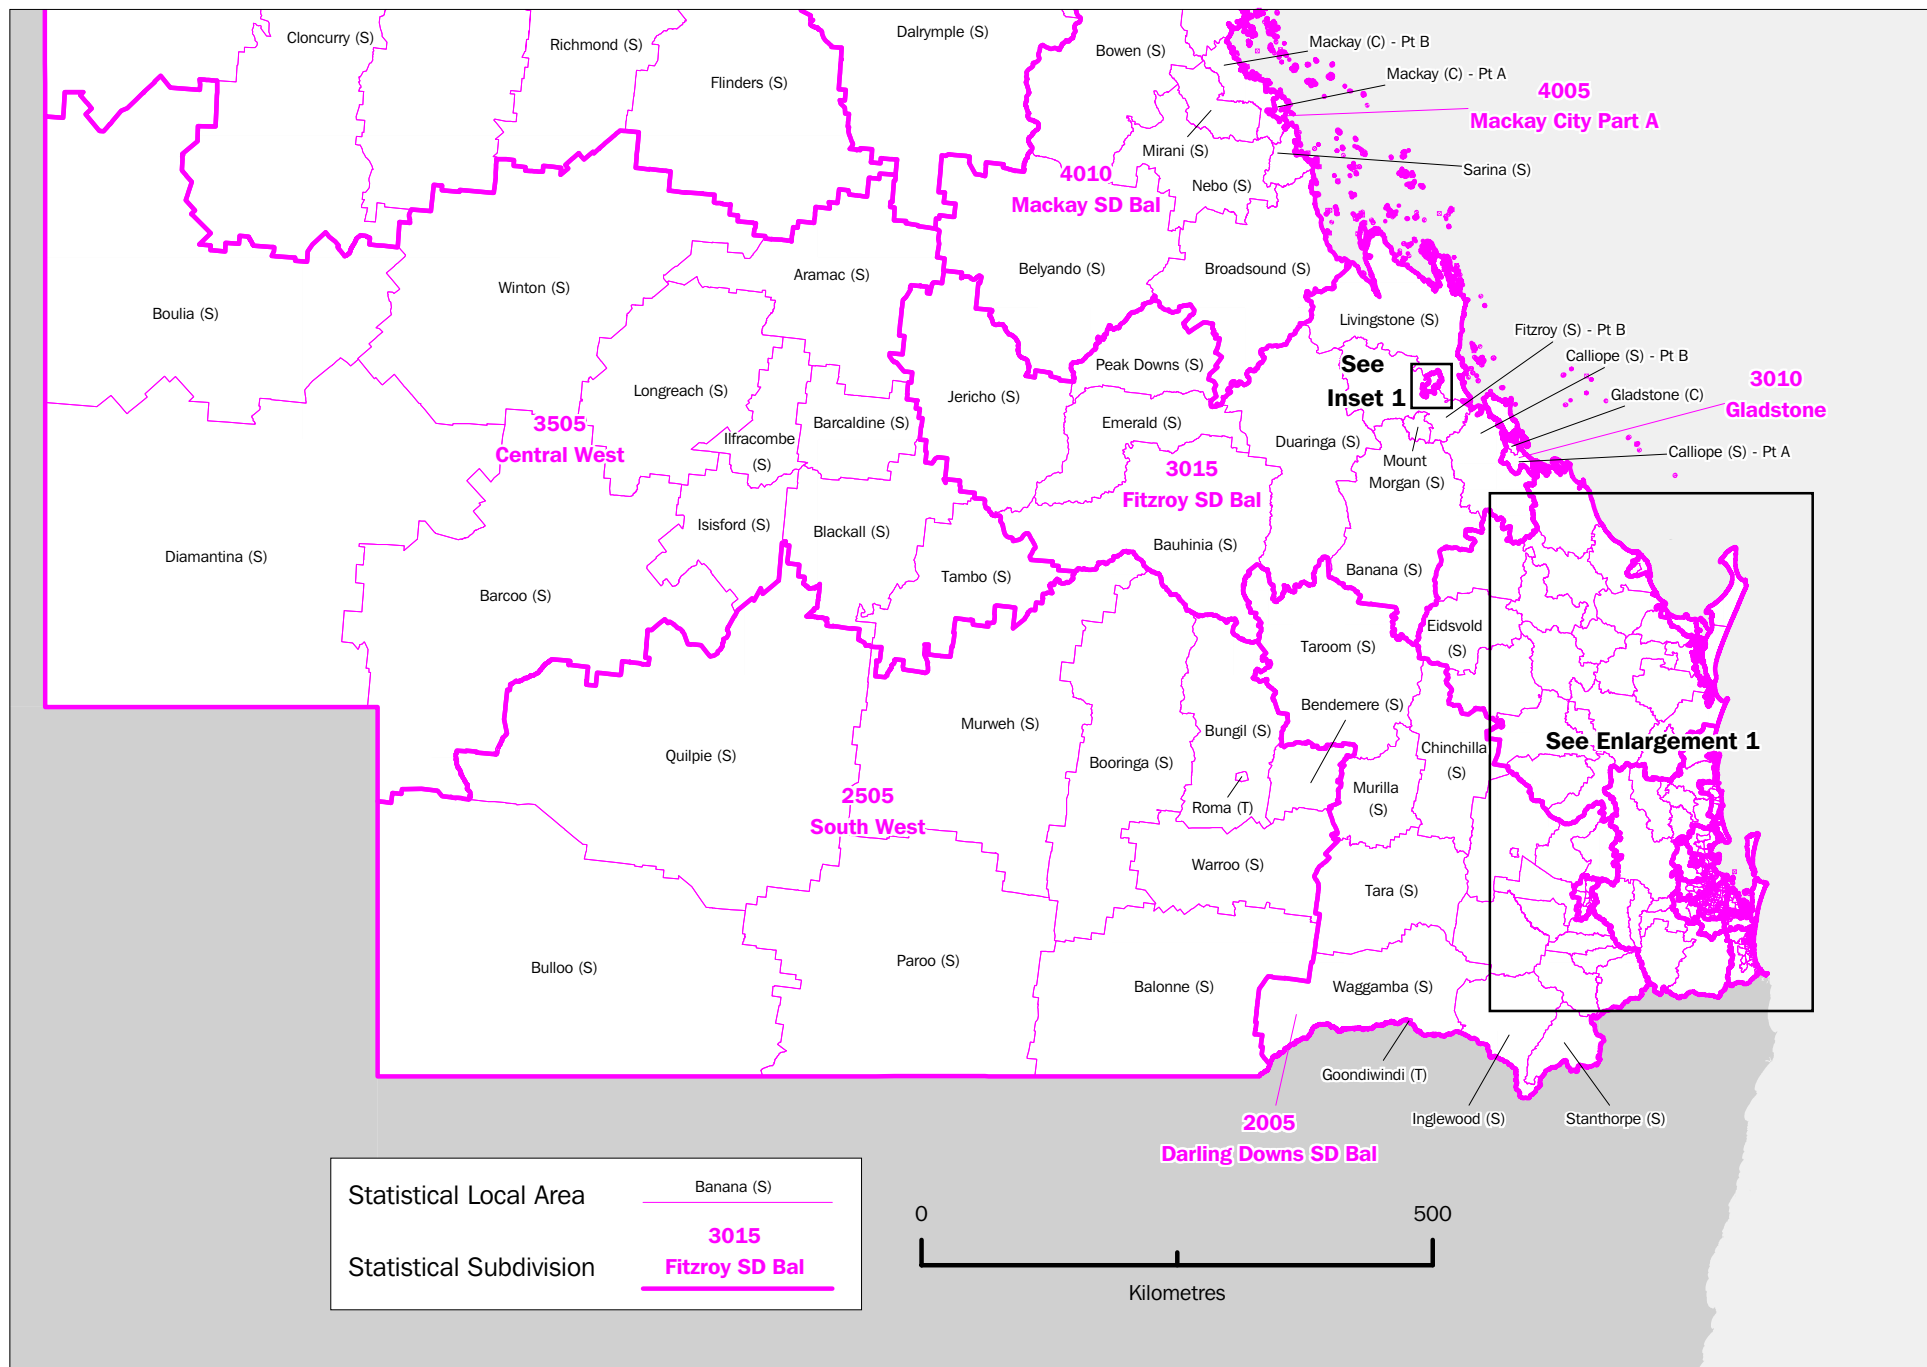

GLOSSARY *continued*

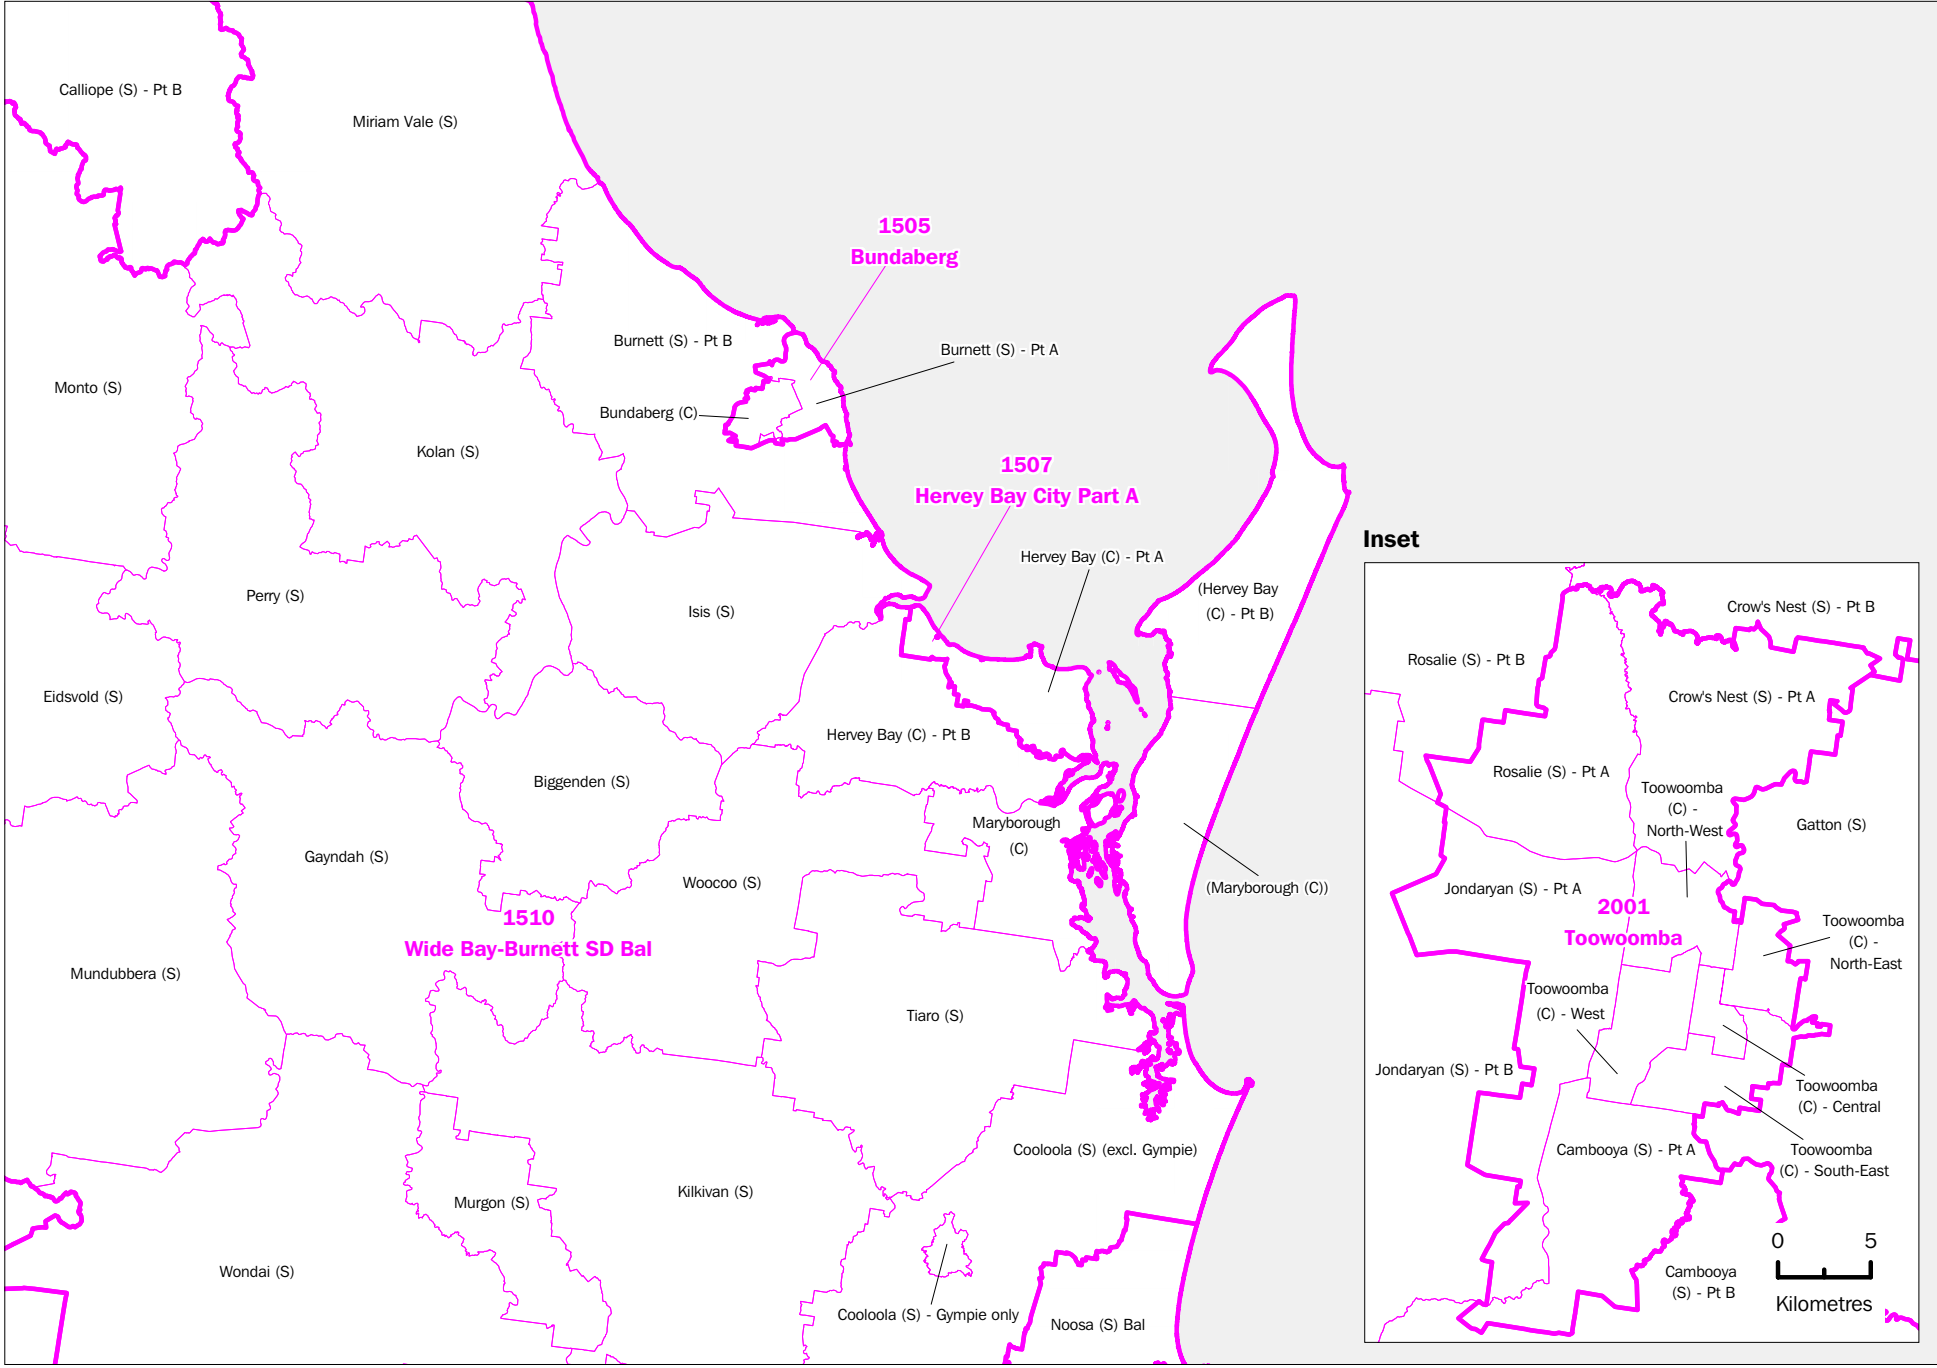

Geographic areas <i>continued</i>	<p>boundaries are delineated to contain the anticipated urban development of the capital cities (and associated urban centres) for a period of at least 20 years.</p> <p>SDs outside the capital city are designed to be relatively homogeneous regions characterised by identifiable social and economic links between the inhabitants and the economic units in the region, under the unifying influence of one or more major towns or cities.</p> <p>State/Territory (STE): States and Territories consist of one or more SDs and are the largest type of spatial unit in the ASGC. The six Australian States and five Territories which are part of geographic Australia and included in the 2001 ASGC are New South Wales, Victoria, Queensland, South Australia, Western Australia, Tasmania, Northern Territory, Australian Capital Territory, Jervis Bay Territory and the external Territories of Christmas Island and Cocos (Keeling) Islands. In the ASGC, Jervis Bay Territory, the Territory of Christmas Island and the Territory of Cocos (Keeling) Islands are combined to form Other Territories (OT).</p> <p>For this series of publications, data for Other Territories are published down to SSD level in 2015.0 (Australia) and down to SLA in 2015.1 (New South Wales) and 2015.5 (Western Australia). That is, Jervis Bay Territory is included in 2015.1 and Christmas Island and Cocos (Keeling) Islands are included in 2015.5.</p> <p>More information about definitions, and lists of codes and names of the geographic areas can be found in <i>Statistical Geography Volume 1: Australian Standard Geographical Classification (ASGC) 2001</i> (Cat. no. 1216.0) effective date 1 July 2001.</p>
Household	<p>A household is defined as a group of two or more related or unrelated people who usually reside in the same dwelling, who regard themselves as a household, and who make common provision for food or other essentials for living; or a person living in a dwelling who makes provision for his/her own food and other essentials for living, without combining with any other person.</p> <p>Under this definition, in a group house where occupants share the dwelling, each occupant who usually supplies his/her own food should be counted as a separate household and issued with a separate Household Form. In practice, however, most such households usually only complete one form.</p>
Income	<p>People aged 15 years and over are asked to indicate their usual gross weekly income by selecting an income range on the census form. There are 16 options ranging from 'Negative income', 'Nil income' through to '\$1,500 or more per week'. For example, a person with a gross weekly income of \$650 per week would tick the range '\$600–\$699 per week'. Gross weekly income is the income before tax, superannuation, health insurance, or other deductions are made. Gross income includes: family allowance, parenting payment, pensions, unemployment benefits, student allowances, maintenance (child support), superannuation, wages, salary, overtime, dividends, rents received, interest received, business or farm income (less operation expenses) and worker's compensation received.</p>
Indigenous	<p>A person is defined to be of Indigenous origin if he or she identifies himself or herself as of Aboriginal and/or Torres Strait Islander origin.</p>
Internet	<p>Internet includes: Internet connections in private and business applications; Internet connection through a computer or set top box, games machine, mobile phone, or other means; and Internet used at other locations including libraries, Internet cafes, shops, educational institutions, or at a neighbour or friends place of residence.</p>
Jervis Bay Territory	<p>See Geographic areas.</p>

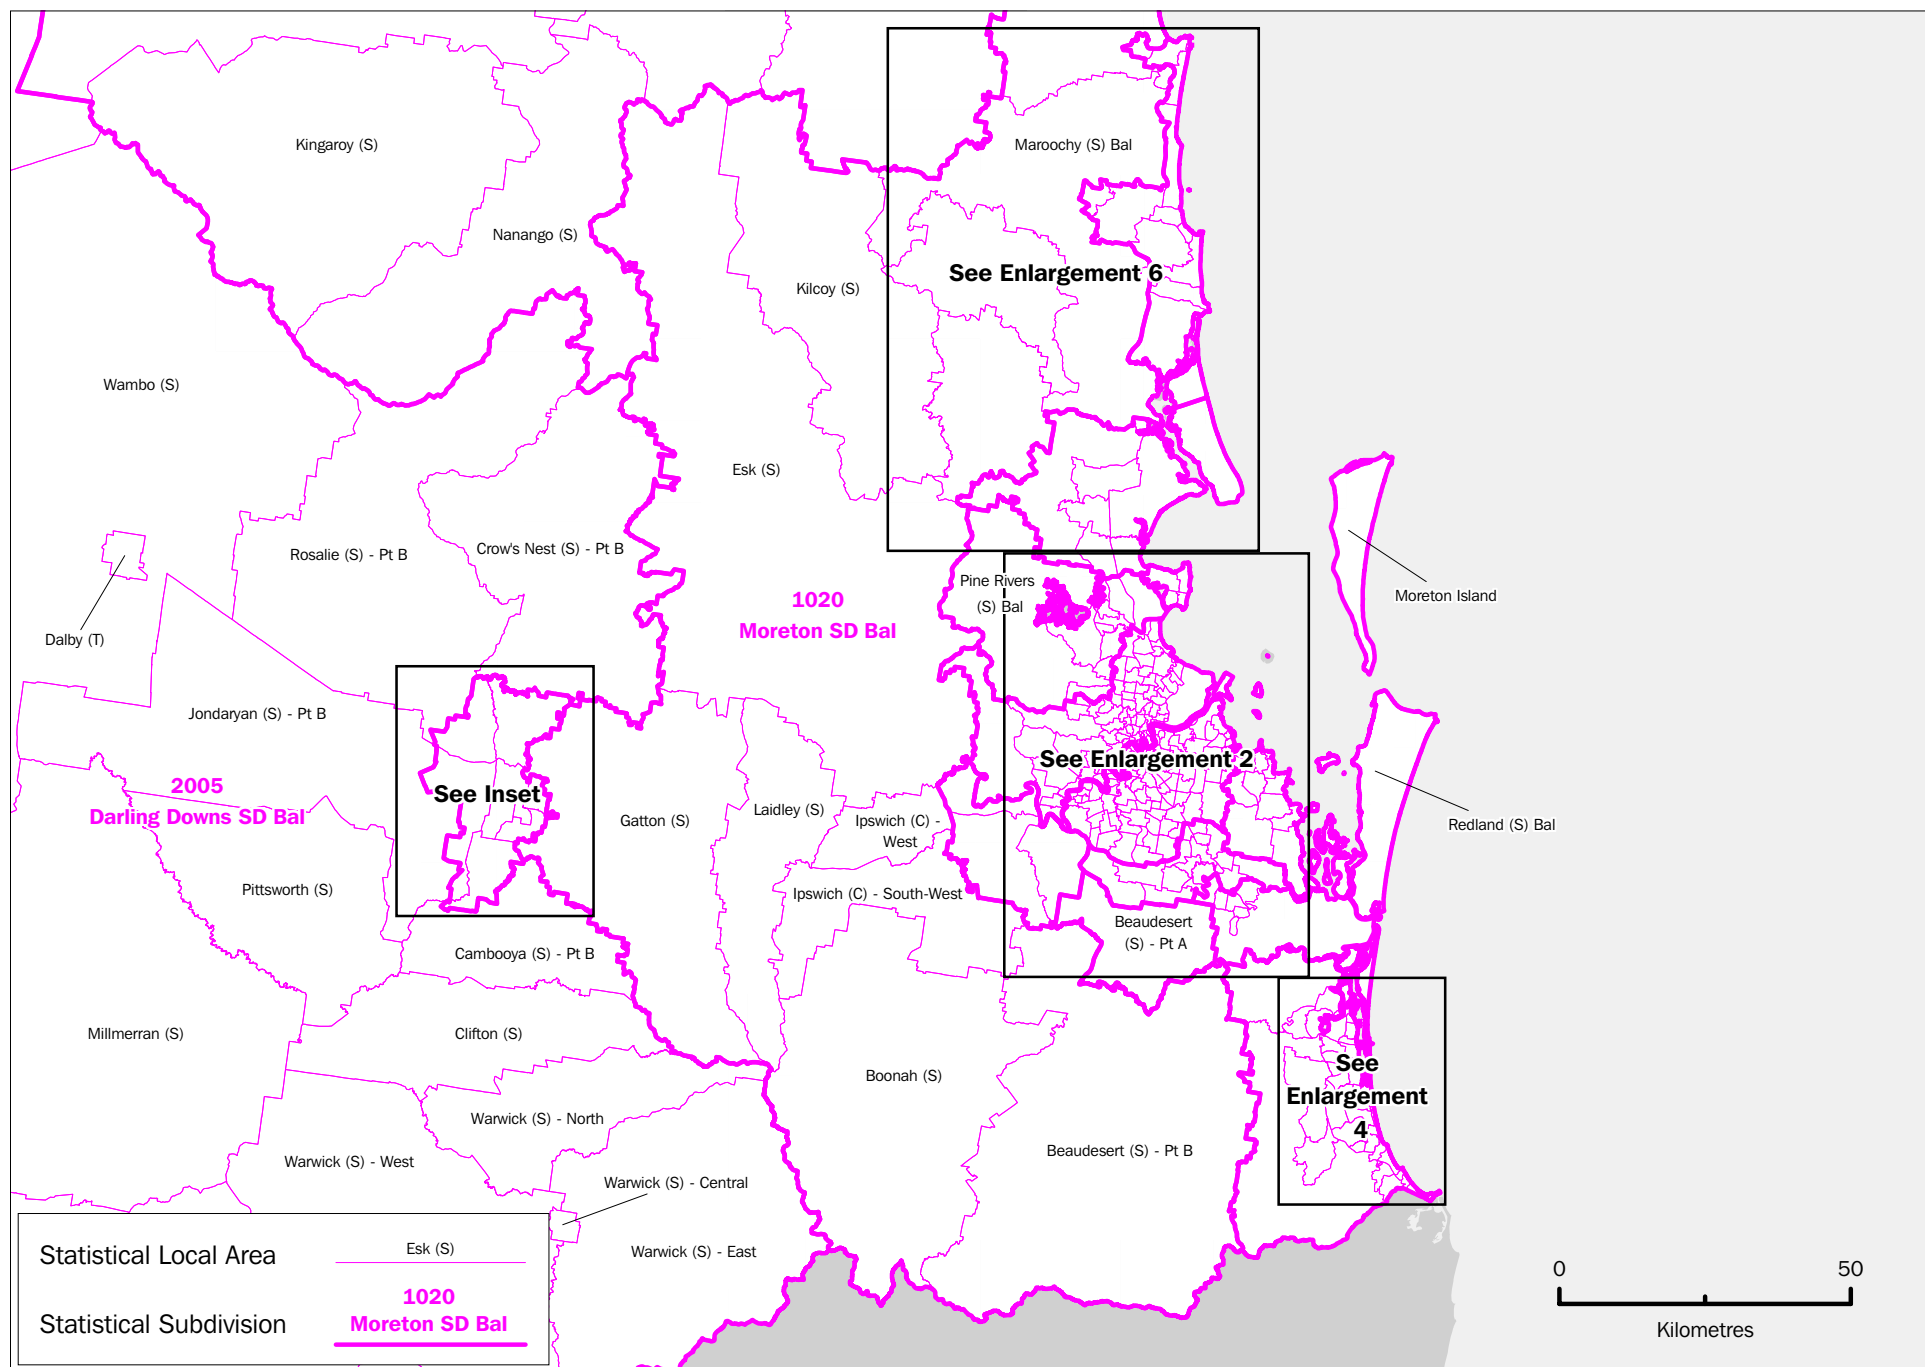

GLOSSARY *continued*

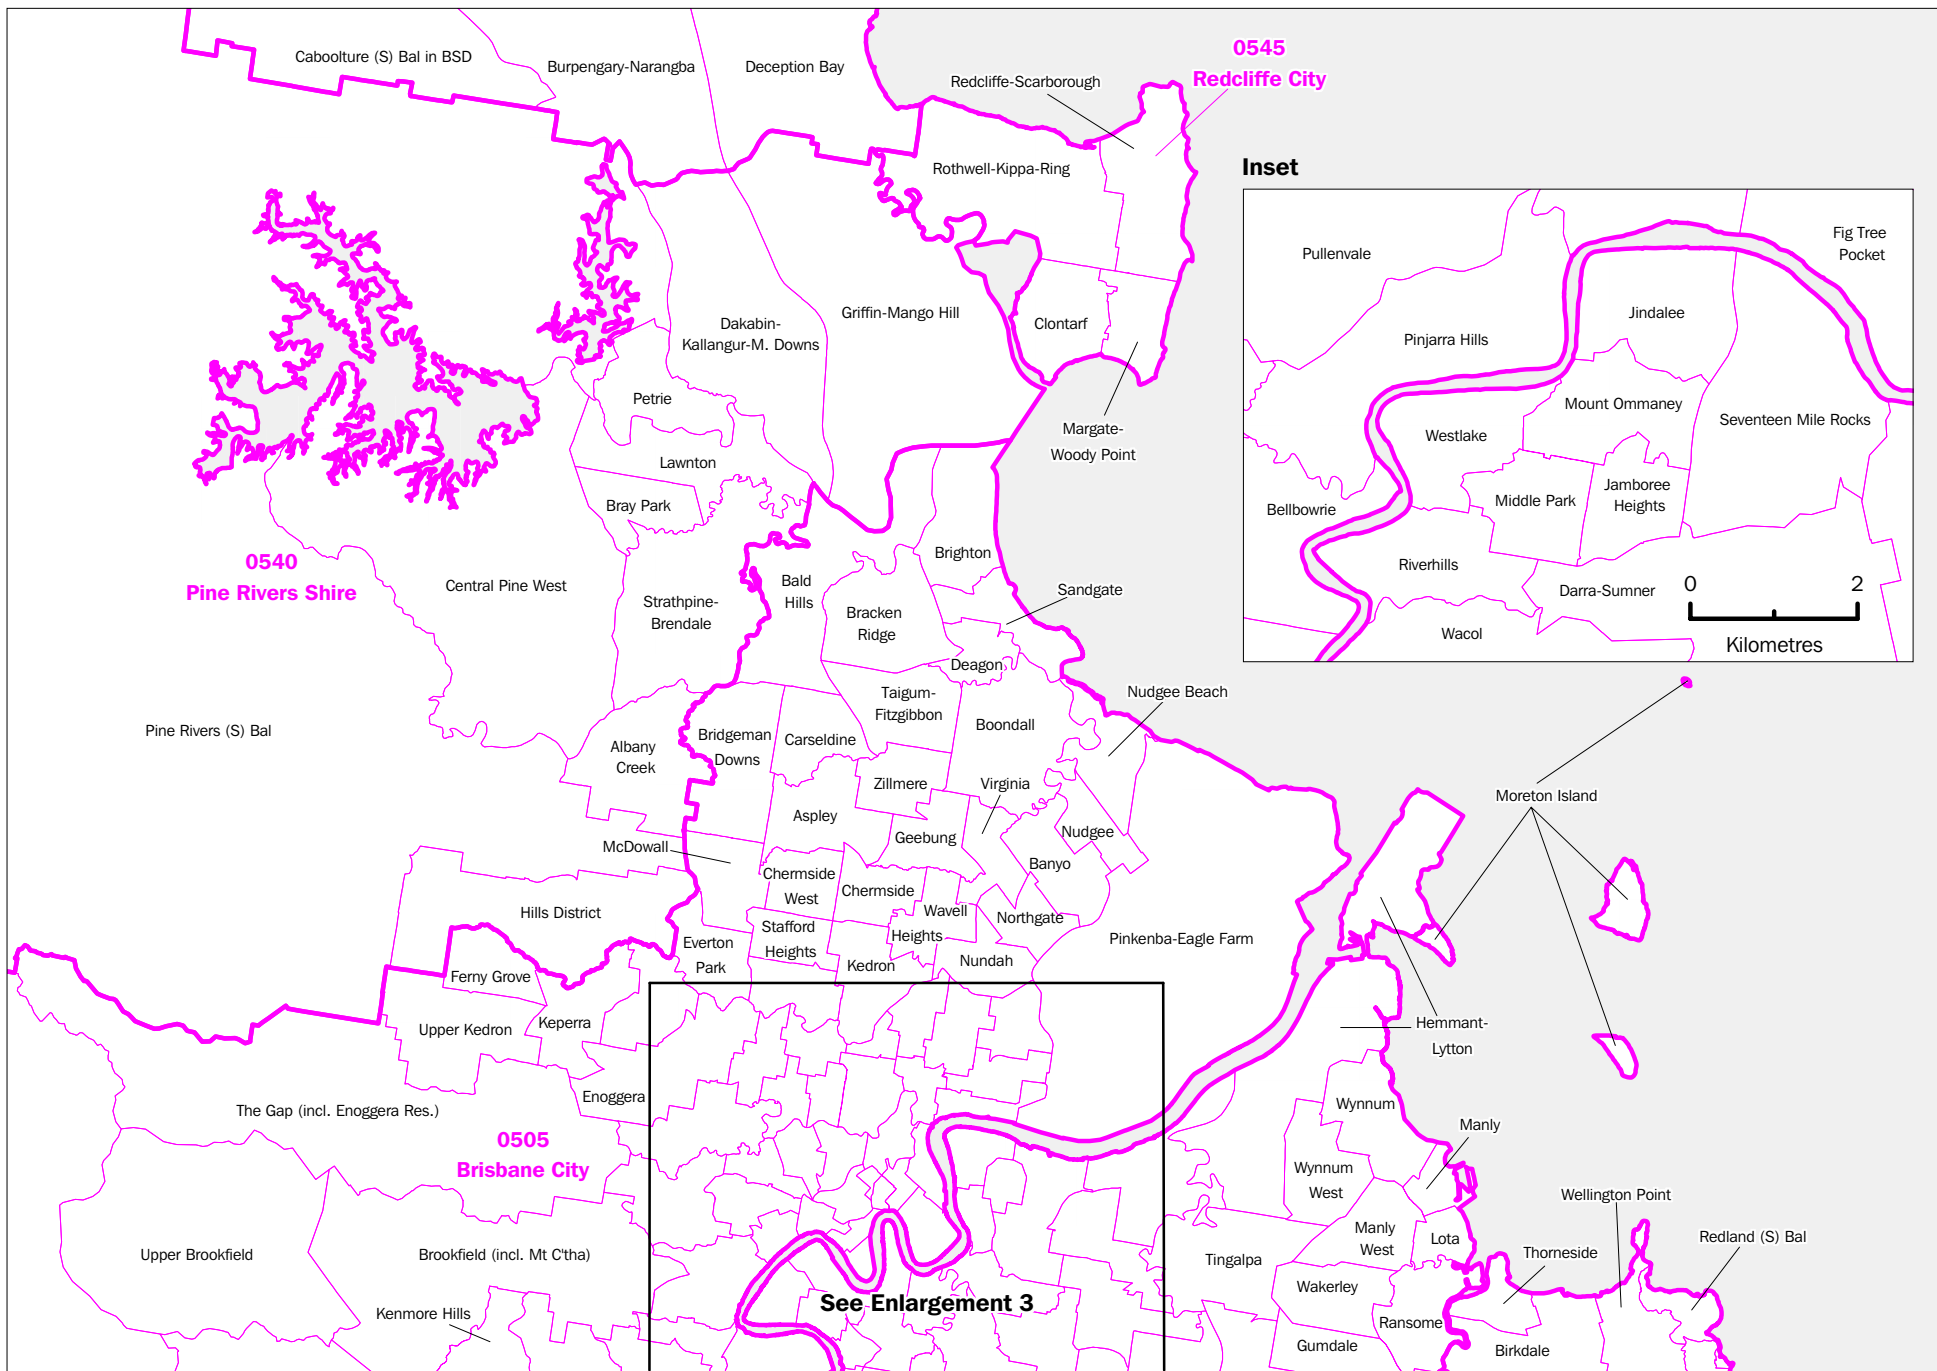

Overseas-born	Overseas-born people are those who state that they were born in a country other than Australia, those born at sea, and those whose responses are classed as 'Inadequately described' or 'Not elsewhere classified'.
Personal Computer (PC)	PCs include: computers used at home for private and business purposes, portable computers, personal organisers, computers brought home from the workplace, and dedicated word processors. Game machines are not included.
Population	Table 3 shows the population on 'Census Night' and 'Usually resident'. The population on Census Night is on a 'Place of enumeration basis'. The usually resident population is on a 'Place of usual residence' basis. Most population counts presented in this publication are on a place of enumeration basis. Place of enumeration means where the person was counted on Census Night.
